

Energy Monitoring Subscription Plan

Achieve your energy and sustainability results, while maximizing the efficiency and resilience of your energy infrastructure.

Comply with building codes

Achieve up to 30% energy savings

Ensure Business Continuity

Reach your sustainability goals

How it works

EcoStruxure[™]
Energy Hub

1

Install meters, wireless sensors, smart breakers – even 3rd party devices

PowerLogic, IoT Sensors, PowerTag

2

Pair devices and connect with our secure cloud-enabled gateways

Configuration web pages, desktop or web device configuration tools

EcoStruxure Panel Server

3

Monitor, gain automated insights and analyze energy usage and waste to maximize savings and uptime

EcoStruxure Energy Hub

20 Points Energy Monitoring Subscription Plan

Ideal for retail store / restaurant owners to keep track of energy usage

20 Points
ENERGY MONITORING PLAN

Subscribe from
\$688 /mo*

Get connected in hours not days or weeks to start gaining insights and taking action

What is covered in the plan

- ✓ Site-by-site electricity, gas and water monitoring
- ✓ Peak demand monitoring
- ✓ Energy cost tracking
- ✓ Energy over-consumption threshold alerts
- ✓ Energy usage by load type breakdown
- ✓ Basic on-off load control and scheduling
- ✓ Building energy code compliance* (monitoring and reporting)
- ✓ Multi-site electricity, gas and water usage comparison and ranking
- ✓ Period-over-period comparison
- ✓ Energy usage analysis by operation hours
- ✓ Energy usage normalization by outdoor temperature
- ✓ Analytics-driven energy insights dashboard
- ✓ Tenant setup and submeter association
- ✓ Fixed energy rate charge, demand charges and tax
- ✓ Automated tenant energy bill calculation
- ✓ Tenant bill historical archive
- ✓ Export tenant energy bills to PDF
- ✓ Refrigeration temperature and status monitoring
- ✓ HACCP* reporting
- ✓ Monitor up to **4 distribution panels**

Gain energy awareness, drive building energy performance and maximize business continuity

3 Years. That's it.

Subscribe for a fixed fee of S\$688 per month and you will get to comply with building energy codes and track energy consumption usage

Installation

We cover install, testing and maintenance of the energy monitoring equipment, unlocking building energy performance and sustainability

Ease of mind

You will be covered with services throughout the entire subscription period.

Suitable for

- Retail outlet
- Small offices
- Server rooms
- Restaurants
- Small manufacturing units

Common for

- Monitoring of lightings, HVAC, general power usage

50 Points Energy Monitoring Subscription Plan

Perfect for mid-sized offices and factories with multiple departments

50 Points

- ✓ Fixed energy rate charge, demand charges and tax
- ✓ Automated tenant energy bill calculation
- ✓ Tenant bill historical archive
- ✓ Export tenant energy bills to PDF
- ✓ Refrigeration temperature and status monitoring
- ✓ HACCP* reporting
- ✓ Monitor up to **25 distribution panels**

Gain energy awareness, drive building energy performance and maximize business continuity

3 Years. That's it.

Subscribe for a fixed fee of \$4988 per month and you will get to comply with building energy codes and track energy consumption usage

Installation

We cover install, testing and maintenance of the energy monitoring equipment, unlocking building energy performance and sustainability

Ease of mind

You will be covered with services throughout the entire subscription period.

Suitable for

- Large manufacturing plant
- Universities, polytechnics and large campuses
- Shopping mall
- Large hospital

Common for

- Monitoring of production lines, machinery, HVAC, cooling systems across multiple sections
- Monitoring of energy usage across multiple buildings (e.g. dormitories, labs, escalators, elevators and individual stores)

Energy Monitoring Super Saver (Subscription Plan)

We offer a comprehensive range of energy monitoring plans, designed to meet the diverse needs of our customers. We simplify energy management for you, enable you to achieve up to 30% energy savings while ensuring compliance with building codes.

Starting today, **maximize the efficiency of your energy infrastructure** and drive your sustainability goals forward effectively!
